THAT MILLER FARM WELL

Not Yet in the Fifth Sand, but Reported as a Gusher—It May Add to the Extent of McDonald's Territory—Others Due at Underhill and Sistersville.

The work in the oil fields yesterday did not develop much of importance, although several well-runners were about regarding a number of wells.

The most startling was that in relation to the Florence Oil Company's No. 1 on the Miller farm, which is located two miles due south of Willow Grove. It was reported to be making from 90 to 65 barrels an hour from the fifth sand.

Late last evening, however, one of the owners arrived in Pittsburgh from the well and stated that it was from 10 to 15 feet above the fifth sand and would scarcely get to the fifth sand, but would about 140 barrels a day from the fourth sand. This sand, and an increase is expected in the fifth sand.

This well is located just east of the Cabbage farm, on which the Devonian Oil Company has a lease. It is owned by the Miller family. They got their oil in the fifth sand, and it is this fact which leads the members of the Florence Oil Company to believe that they will get more oil in the fifth sand formation. If they do get a good producer it will open up a big scope of territory, as the Miller well is in advance of everything in this region and already has occasioned a great deal of excitement.

There was very little change in the production of the McDonald field yesterday. The estimate of output was given at 20,500 barrels, the same as the day before. Greenlee & Ford's No. 6 Marshall fell from 35 to 25 barrels an hour, and the output of the company's No. 4 McClelland from 25 to 20 an hour.

Guffey is preparing to start Nos. 8 and 7 on the Shane farm in the Meise pool. He will soon have well drilling on the Ewing farm in the fourth district of the north-eastern McCurdy pool.

Light Well on the McMurray.

The People's Gas Company's No. 156, on the McMurray farm, north of Oakdale, had not improved yesterday, and from present indications is not likely to be a very light well.

Greenlee & Ford expect to get into the fifth sand to-day on the Oak Ridge Coal Company's property east of Oakdale. They estimate the output will be given at 20,500 barrels, the same as the day before.

Fitzgibbon & Co. are on top of the fifth on the Robb wells farm, south of Willow Grove, by the middle of next week.

Underhill—John M. Patterson & Sohn's well on the Knoch farm, located 1,000 feet on their initial well on the Knoch farm, was on top of the 30-foot sand last evening and gassing nicely. They shut it down, but will get into the fifth sand to-morrow.

The North American Oil Company shut its well on the Hancock farm, in the southeast part of the Wood field, yesterday.

The Royal Gas Company's No. 3 on the N. G. Cook farm, east of McDonald's, is on top of the fifth sand to-day.

The Florence Oil Company will finish up its No. 6 on the Robb wells farm, south of Willow Grove, by the middle of next week.

The Royal Gas Company's No. 3 on the N. G. Cook farm, east of McDonald's, is on top of the fifth sand to-day.

Chief McClaughey has been at work on the plan ever since he has been connected with the Chicago police. He has called to his assistance only those of reputation as detectives, and Superintendent O'Mara says the scheme as now arranged will guarantee to all visitors to the Fair positive safety against thieves and pickpockets.

Chief McClaughey's orders to his police force will be to arrest every suspicious person found in Chicago. The officers sent from the various cities will be charged with looking only to the crooks from their own districts.

"It will be a bad place for the crooks," Mr. O'Mara said yesterday. "They will have absolutely no chance to operate, and they will be picked up on sight, and if arrested they will be sent up until after the Fair closes."

THE SIXTH STREET BRIDGE

Foot Passengers To-Day Have a Much Better Time Than They Had Years Ago.

"When they were building the old Sixth street bridge, which is now almost a thing of the past," said a well-known Pittsburgher yesterday, "we did not have such an easy time getting from Allegheny to Pittsburgh as we have now. The old bridge was built during the war, and the bridge company had a small ferry boat to carry passengers across at the customary toll rate. Then when the bridge was nearing completion they provided a footpath in the shape of a high bridge suspended independently from the main structure. I remember that the footway used to swing quite perceptibly, and at times to such a degree that nervous people didn't like it. The improvement in the bridge building is conspicuously shown in the temporary arrangement for foot passengers on the Sixth street bridge to-day."

The upper structure of the new bridge is pretty nearly completed and passengers hardly realize how much yet remains to be done. Some idea of the work ahead of the builders still may be gained from the statement of one of the engineers yesterday that more than 1,000,000 rivets have yet to be made fast, and every rivet by hand. The work is being pushed as rapidly as possible in order to get the false work, the wooden trestles, etc., which can best be seen from the Seventh street bridge, out of the way before the fall rains come to swell the Allegheny.

Wanted to Start a Bakery.

George Weber was arrested yesterday on a warrant sworn out before Alderman McEwen by John J. Davis, charging him with larceny. Weber, who had entered Davis' bakery on Penn avenue, and carried off about \$50 worth of baker's utensils. Weber's house in Spring alley was searched and most of the missing articles recovered.

He Robbed His Father.

Christ Wolfman was arrested last evening by Lieutenant Booker for larceny. Last June he robbed his father of \$75. The parent forgave the boy last week and took him back home. On Tuesday last he stole \$45 and went away, but was arrested on Mt. Washington on the information of his father.

MRS. JAMES BROWN POTTER tells Carpenter her family troubles and her experiences in India for THE DISPATCH to-morrow.

A woman's faith saved her.

Here are her own words:—"I was prostrate with displacement of the womb and the consequent ulceration and spinal weakness."

"I was obliged to lie in bed, as to walk or stand was impossible, because of dizziness and severe bearing-down pains."

"A friend told me how she had been cured of similar trouble by using Lydia E. Pinkham's Vegetable Compound, and I believed if it would cure her it would me."

"And it did—one bottle brought me out of bed, and three got me up so that I could do the housework."

"I believe it is the best medicine in the world for female complaints, and I want every woman to know about it."—JOSAPHINE SCHOENBORN, 713 Baker St., Baltimore, Md.

Yes, we have proof abundant which shows that no one remedy in all the world has relieved so much female suffering.

All druggists sell it, or by mail, in form of Pills or Compound, in form of Tablets, or in form of Syringes.

Write for full particulars to J. C. Fiske, 231 West Broadway, New York, N. Y.

THE PITTSBURGH DISPATCH, SATURDAY, OCTOBER 15, 1922

CROOKS AT THE FAIR.

Making Preparations to Receive the Thieves of the World.

SUPT. O'MARA ASKED TO ASSIST.

Three Detectives to Be Sent From Pittsburgh to Chicago.

PICKING UP CRIMINALS ON SIGHT

Superintendent of Police O'Mara has returned from Chicago, where he had gone on the invitation of Chief of Police McClaughey to assist in making plans to handle the crooks of the world whom it is expected will assemble in Chicago at the opening of and during the World's Fair.

The Chicago police officials are informed that all the crooks, pickpockets and thieves of the world will attend the Fair, and the plans to protect visitors against the army of robbers have been made thorough and completely. All the best detectives of the country have been called to Chicago to assist the police officials of that city in arranging the system of protection.

The head and front of the police department in every city in the United States attended the conference in Chicago and all united in the scheme that was finally adopted.

Chief McClaughey in Charge.

The best detectives of each of the cities will be sent to Chicago and before the Fair opens the army will be thoroughly organized and will be under the direct charge and supervision of Chief McClaughey.

Superintendent O'Mara will send three Pittsburgh detectives to Chicago. He has not yet decided who he will send. He has determined, however, that those who do go will be those most thoroughly acquainted with the criminal class of Pittsburgh and Western Pennsylvania. Philadelphia will send to Chicago 20 detectives who are familiar with the crooks and criminals of Philadelphia and Eastern Pennsylvania. New York, Baltimore, and all the cities will send a full squad of officers. The Pinkertons will supply Chicago as they do at present with a company of watchmen and detectives. Expert officers will be brought from all the European cities, and when the Fair finally opens it is expected by the Chicago police officials that they will have gathered together under a competent head the best police protection to be secured in the world.

A Guarantee Against Robbery.

Chief McClaughey has been at work on the plan ever since he has been connected with the Chicago police. He has called to his assistance only those of reputation as detectives, and Superintendent O'Mara says the scheme as now arranged will guarantee to all visitors to the Fair positive safety against thieves and pickpockets.

Chief McClaughey's orders to his police force will be to arrest every suspicious person found in Chicago. The officers sent from the various cities will be charged with looking only to the crooks from their own districts.

"It will be a bad place for the crooks," Mr. O'Mara said yesterday. "They will have absolutely no chance to operate, and they will be picked up on sight, and if arrested they will be sent up until after the Fair closes."
